

ELECTION RESULTS

<http://elections.bexar.org/>

At 7 p.m. on Election Day, the Elections Department will release the results of early voting and they will be posted on the Bexar County Elections Website. When the polls are closed on Election Day, the poll site results are printed on a tape and posted at the individual Election Day poll site.

You may view the results there.

After the election judge completes all poll site closing tasks, then that tape is taken to a regional sending site and the poll site results are transmitted to the tabulation center.

Results are released from the tabulation center throughout the election night and are updated periodically on the website as the election results are reported.
